

Short CV

Luka Ciber

Faculty of Chemistry and Chemical Technology
University of Ljubljana
SI-1000 Ljubljana, Slovenia
Luka.Ciber@fkkt.uni-lj.si

I obtained M.Sc. in chemistry in 2019 from the Faculty of Chemistry and Chemical Technology at the University of Ljubljana, Slovenia, under the supervision of Associate Professor Uroš Grošelj. I continued my studies under the same supervision as a PhD student. My main research interest is stereoselective catalytic conversion of heterocyclic compounds and synthesis of new asymmetric organocatalysts.

Current position

University of Ljubljana, Slovenia
Faculty of Chemistry and Chemical Technology
PhD student 2019-present

Education

University of Ljubljana, Slovenia
Faculty of Chemistry and Chemical Technology
MSc degree, chemistry 2019
Dissertation: Synthesis of pyrrolin-4-one derivatives and their application in organocatalyzed reactions

University of Ljubljana, Slovenia
Faculty of Chemistry and Chemical Technology
BSc degree, chemistry 2017
Dissertation: Organocatalyzed 1,2-additions of 5-benzylpyrrolone to isatin imine derivatives
